BUYER PERSONA

BMW

NEEDS
Alexander is looking for a premium and hassle-free way to purchase his next car. He wants to compare BMW models, explore financing options, book a test drive, and customize the vehicle before visiting the showroom. He also expects transparent pricing and instant support through the app.

FRUSTRATIONS
- Visiting multiple dealerships to compare prices.
- Hidden charges and unclear financing plans.
- Long waiting times for test drive appointments.
- Difficulty finding cars with preferred features and colors.
- Poor customer support after booking.

PERSONALITY
Alexander is a confident, tech-savvy, and detail-oriented buyer. He enjoys luxury products, values quality over price, and prefers making informed decisions through digital platforms. He appreciates a clean, modern, and easy-to-use app experience.

GOALS
- Buy a new BMW within the next three months.
- Book a test drive online in just a few taps.
- Compare models, colors, and specifications easily.
- Receive personalized finance and EMI options.
- Track the purchase and delivery status from the app.

PROFILE DETAILS
AGE: 30 Years
OCCUPATION: Software Engineer
PERSONALITY: Ambitious • Tech-Savvy • Luxury-Oriented • Practical
STATUS: Married
LOCATION: Bangalore, Karnataka, India

BIO
Alexander Thomas is a 30-year-old software engineer living in Bangalore. He has a stable income and is planning to buy his first luxury car. He researches every purchase carefully and prefers completing most of the buying journey online before visiting a showroom. He values convenience, transparent pricing, and personalized recommendations. A BMW dealership app helps him browse vehicles, compare models, book services, and stay connected with the dealership throughout the ownership journey.
